RWYC Regatta

Motor Yacht Predicted Log Challenge

Skippers & Independent Observers needed

Saturday July 21st – Start between 10:00 & 12:00. Duration approx 3hrs. Followed by Prize-Giving & Party at RWYC.

Open to powerboats & yachts under engine, this is a navigational and tactical challenge where contestants predict in advance the time necessary to complete a predefined course in seconds. It is not a speed contest, it is better than that, as you will be pitting your wits and experience against time, tide and other contestant's accuracy.

Each skipper chooses a fixed speed or engine rpm for their own boat which is comfortable and safe & within harbour limits. The objective is to complete the course in as close as possible time to the predicted time without using a clock or time piece. The winner is the boat which has the lowest percentage time error.

Each boat needs an independent **Observer** onboard to record start & finish times and watch for infringements. Observer Instructions will be available but just a notepad and timepiece is needed. Register your interest with the RWYC Office and we will try to allocate everyone to a boat.

Skippers (£10 or £15) and Observers (Free) are welcome. Want to find out more? Visit the new RWYC website – Power Boat section for Instructions and Entry forms or contact the RWYC Office for more details: 01752 660077 or email admin@rwyg.org
