

We need your help!

The club runs many sailing events through the season as well as the weekly club racing, and a developing sailing and race management instruction programme is underway to get new and particularly young people on the water. We recognise that everyone has different skills and interests so we would appreciate a response to the following questionnaire to help set up the instruction and training and even RYA courses for helpers and volunteers.

It would also help us if you could identify your existing qualifications, experience and activity In Table 1 and areas of interest for the future in Table 2; particularly if you can help with the Plymouth Regattas please complete the latter sections.

NAME..... Tel No.....
